### About Me

"Hi, I'm Muhamad Yunus. I currently work in IT Regulatory Reporting within the financial industry, with 3+ years of experience in regulatory reporting, focusing on database management, system automation, and technical reporting to ensure compliance with applicable standards and requirements. Beyond this role, I have a strong passion for data processing—transforming data into meaningful insights that support accurate and impactful decision-making. As an adaptable professional, I am open to exploring diverse roles where I can add strategic value."

### Experience

#### HANA BANK Tbk

IT Regulatory Reporting Assistant Manager (Jul 2025 - Now)

- Develop and maintain ETL processes using SQL, Oracle, and Pentaho to support data preparation and transformation for BI, OJK, and LPS regulatory reporting.
- Design and implement automation solutions using Macro VBA and SQL to streamline recurring reporting processes, reduce manual tasks, and improve operational efficiency.
- Build internal MIS reports to provide users with reliable, accessible data for continuous monitoring and operational needs. Perform data validation, reconciliation, and root-cause analysis to identify discrepancies, resolve reporting anomalies, and maintain data lineage consistency across financial systems.
- Collaborate with internal stakeholders and external vendors on system development, enhancement, integration, and troubleshooting for regulatory compliance.
- Handle internal and external ad-hoc data requests, while supporting audit requirements by providing accurate data analysis, reporting extracts, and compliance evidence for both internal and regulatory (BI, OJK, LPS) audits.

#### CIMB NIAGA Tbk

Regulatory Reporting Specialist (Feb 2024 - Jun 2025)

- Prepare and submit monthly regulatory reports, including BI ANTASENA and SLIK OJK, ensuring 100% compliance with central bank and financial authority standards.
- Develop and enhance system automation using Macro VBA and SQL, successfully reducing data validation and processing time by 80% while minimizing human error.
- Analyze and detect data anomalies for reporting, while providing technical support for internal and external audit data analysis.
- Collaborate with cross-functional divisions to streamline report generation and provide accurate data analysis to support management decisions.

#### MNC BANK INTERNATIONAL Tbk

Regulatory and Reporting Management (January 2023 - Feb 2024)

- Prepare and submit report to regulator on Daily, Weekly, Monthly, Quarterly, Semester and Annual Basis (BI ANTASENA, APOLO OJK)
- Support Data for Management
- Collaborate with other divisions in making reports
